Interton. Part of something bigger.

Interton is part of GN, a company dedicated to making life sound better through intelligent audio solutions that let you hear more, do more and be more than you ever thought possible.

We are the only company in the world with medical, professional and consumer grade audio technology under one roof. This gives us unprecedented knowledge of hearing and the human ear.

Ever since we were established 150 years ago, GN has been at the forefront of technology, laying the first submarine cable linking East to West by telegraph (if you like, the precursor of to the internet), and this pioneering spirit burns just as brightly today. For example, we were the first to introduce 2.4 GHz wireless connectivity, Made for iPhone and many other innovations that benefit people with hearing loss worldwide.

By being part of the GN Group, Interton continues to benefit from 150 years of experience and a tradition of delivering leading innovations in hearing solutions.

Help your clients hear better and smile more with Interton
